PCG Screening — Employer Portal User Guide

Welcome to your PCG Screening employer portal. This guide covers everything you need to invite candidates, track screenings, manage your team, and update your settings.

Logging In

1. Go to your portal login page.
2. Enter your email and password.
3. Click **Log In**.

If you need login credentials, ask your company's portal admin or contact PCG Screening.

Dashboard

Your dashboard shows a summary of your company's screening activity:

- **Total Candidates** — everyone your company has submitted
- **In Progress** — screenings currently being processed
- **Completed** — finished screenings
- **Recent Candidates** — the latest submissions with their current status

If you are a **standard user** (not an admin), you will only see candidates that you personally submitted. Company admins see all candidates across the organization.

Inviting a Candidate

This is the main action you'll use day to day.

Using a Package

1. Click **Invite** in the sidebar (or bottom nav on mobile).
2. Select one of your company's pre-configured screening packages. Each shows the package name, price, and included checks.
3. Click **Continue**.
4. Enter the candidate's first name and email address.
5. Click **Send Invite**.

The candidate receives an email with a link to complete their screening application.

Using Custom Screening (A La Carte)

If none of the standard packages fit, use the **Custom Screening** option:

1. On the Invite page, click the gold **Custom Screening** banner at the bottom.
2. Pick the individual checks you need — criminal, employment verification, education, drug testing, and more.
3. A summary of your selections appears as you choose.
4. Click **Continue** and fill in the candidate's info.

Manual Entry

If you already have the candidate's information and don't need to send them an invite:

1. On the confirmation step, choose **Manual Entry**.
2. Fill in the candidate's first name, last name, email, and phone.
3. Click **Submit**.

This creates the candidate record without sending an invitation email.

Candidates

Viewing Your Candidates

Click **Candidates** in the sidebar to see all submissions.

- **Admin users** see every candidate in the company
- **Standard users** see only candidates they personally submitted

Each row shows the candidate's name, package, status, and submission date.

Candidate Detail

Click on a candidate to see their full record:

- Status and tracking code
- Package details
- Screening progress
- Uploaded documents

You can share the **tracking code** with candidates so they can check their own status on the Track Status page.

Tracking a Candidate's Status

Candidates can check their own screening status without logging in:

1. Visit the **Track Status** page (linked from the main website header).
2. Enter the tracking code (format: PCG-XXXXXXXX).
3. The page shows their current status and progress timeline.

You can give this tracking code to candidates at any time.

Team Management

> *Team management is only available to **admin** users.*

Click **Team** in the sidebar to manage your company's portal users.

- **View** all users on your team with their name, email, and role
- **Add** new team members — they'll receive login credentials
- **Edit** user roles:
  - **Admin** — can see all candidates, manage team, and access settings
  - **User** — can invite candidates and see only their own submissions
- **Remove** users who no longer need access

If you don't see the Team link, you have a standard user account. Ask your company admin to upgrade your role if needed.

Resources

Click **Resources** in the sidebar for helpful documents and guides provided by PCG Screening — forms, compliance information, and reference materials.

Settings

Click **Settings** to view and update your account preferences. Some settings may be managed by your company admin or by PCG Screening directly.

Mobile Use

The portal works on phones and tablets. On smaller screens:

- The sidebar is replaced by a **bottom navigation bar**
- Tap **More** (the three-line icon) to access Team, Resources, Settings, and Log Out
- All features work the same as on desktop

Logging Out

- **Desktop**: Click **Log Out** at the bottom of the sidebar
- **Mobile**: Tap **More** in the bottom nav, then tap **Log Out**

Common Questions

Q: I invited a candidate but they didn't get the email. Check that you entered the correct email address. The candidate should also check their spam folder. If the issue persists, contact PCG Screening.

Q: Can I change a candidate's package after inviting them? Contact PCG Screening — they can update the screening components on their end.

Q: I'm a standard user but need to see all candidates. Ask your company admin to change your role to Admin in the Team section.

Q: How long does a screening take? Most screenings complete within 1-3 business days, depending on the package and jurisdictions involved.
